### About This Game

Help this crazy cat to the next level by jumping on all the tiles but beware you can't jump on them again when stepping off. If all the tiles are gone the portal that brings you to the next level appear. If you fall off the screen you will get respawned and you get a second chance. The game is set in a colorful world while advancing the game will get more complicated level layouts. Later levels have more additional mechanics like a rotating spike tile and a teleport tile too.
